

LIOFRUIT **SOFT**

**New sensory
experiences which
add color, flavor,
and texture to
the products.**

LIOTÉCNICA

*Nature's power in
each ingredient.*

The LIOFRUIT SOFT line was designed to provide new sensory experiences to a wide variety of applications.

It is a preparation made of fruits, sweets and desserts, presented in 3, 5 or 10mm irregular cubes.

Designed to add flavor, color, and texture, these ingredients enhance the sensory appeal of the products, which are characteristics increasingly valued by customers.

- ✓ Ingredients of animal origin free

Applications

Biscuits and cookies

Bread-making

Pastry

Cereal bars

Granola and morning cereals

Chocolates

Dessert toppings

Bread-making and pastry

LIOFRUIT SOFT is the ideal option because it provides a distinctive sensory experience, keeping characteristics such as smooth texture, vivid colors and flavor explosion.

Cereal bars, morning cereals, and granola

The LIOFRUIT SOFT line adds flavor, color, and texture to morning cereals, cereal bars, and granola, enhancing the product's sensory appeal and visual appeal. With a smooth texture, this line provides a pleasurable contrast with cereal crispness, delivering a richer sensory experience. Besides, its irregular shapes and vivid colors bring more variety, and make the product visually attractive.

Chocolates

With chocolates, the LIOFRUIT SOFT line provides a new experience of flavor, color, and texture to the products. Its softness contrasts with either the creaminess or the crunchiness of the chocolate, providing a surprisingly rich sensory experience.
